About World Interaction Design Day

IxDD is IxDA's annual event where we come together as a united global community to show how interaction design improves the human condition.

Our aim is to have a positive, long-lasting impact by facilitating activities that support dialogue and outcomes.

We welcome everyone to contribute by hosting activities for their local communities around our 2023 theme: **Ethics, Equity, + Responsibility.**

STAY
CURIOUS

Local meetups: 2023 sees World Interaction Design Day return to our roots, with local meetups hosted around the globe — in person and online.

Global Reach and Inclusion: Anyone can organize a World Interaction Design Day event. In 2022, IxDD hosted events from 18 countries.

A global team: We're building a global team of IxDD Ambassadors to ensure representation from all regions in our community.

Supporting Local Groups: IxDD is the only global initiative where Local Groups are supported by IxDA financially. This support is made possible through our sponsors.

About IxDA

As a community of more than 150,000 with local groups around the globe, IxDA's network actively focuses on Interaction Design issues for the practitioner, no matter the level of experience.

We are driven by a passion for design, and a belief that our practice of interaction design can make the world a better place. Through local meetups to global events and initiatives, this community comes together to connect, to advance our professional craft and improve our shared human condition through that effort.

We believe that the human condition is increasingly challenged by poor experiences. **Diversity**, **inclusion**, and **parity** are core values. IxDA relies on **individual initiative**, **contribution**, **sharing** and **self-organization** as the primary means for us to achieve our goals.
